  - Intramurals have had a positive impact
  - Rachel brought up the fact that the teachers are choosing healthy options for things to read about to inform students.
  - Phena asked what we are doing as a school to help promote health within our faculty?

- Alison said yes the vending machine companies know the rules and regulations from the State that are put out there for regulations
- Alison mentioned that Phena does a very good job of sending emails out to remind us all the good things health wise.

#### 4. Building Security - Alison-

- School safety is a first. All of the exterior glass is ballistic.
- We can control who comes in the school doors with the way that our building is designed.
- Our goal is to keep the people out of the building. (This is our goal as a district)
- The question was asked if the glass in the hallway is ballistic? No it is not, it's just regular glass.
- We have a school resource officer that has access to a locked cabinet with guns to help keep everyone safe. Travis and Alison have access to it as well.
- The question was asked: how do we protect the students if the glass in the hallway is not ballistic?
- BJ spoke to this saying that the teachers need to know what they would do in this situation and have a plan.
- Alison brought up the fact that the glass halls protect sexual grooming from happening to a student or a teacher because now you can see everything that goes on in that classroom.

#### 5. Report from counselors

- The counselors have an intern that's helping them to finish up the CCRP's.
- They are gearing up for registration.
- They finished up their griff group
- We have incoming 5th graders coming to our school the first of February.
- The jr. high counselors will be coming to our school to help with the 7th grade registration.

#### 6. Trustlands Funds continued- Alison

- We looked at the back of the agenda and Alison addressed all of the agenda addendums.
- The idea of having a "Rainy day" fund but we can not carry over trustland funds.
- We will plan to replace 400 chromebooks each year starting next year.
- The council mentioned that they are grateful that the majority of the trustlands budget goes towards FTE's. With more FTE's we can reduce class sizes and that makes things better for all students.
- It was brought up that the State has some left over covid money that they want to put towards paraprofessionals. So a paraprofessional could become a full time employee for at least 2 years. (This is all based on some of the State funding and rules and regulations.)
- Rachel Anderson seconded the motion to roughly approve the trustlands budget and Kaylyn Reed seconded.
- Alison is going to take the trustlands budget that we talked about today and draw up a more clear budget for us to vote on next month.
- The talk of vouches happened. We talked about what vouchers are. Vouchers are a very political thing. "Every

teacher will get a \$6,000 raise if you support vouchers.”  
They are writing the raises and the vouchers in the same bill.
